

## BBYO 'sails' off into sunset

Friday, 12 June 2009

Local teens celebrated the end of a milestone year for BBYO's Lake Ontario region at the movement's recent Toronto Harbour Boat Cruise. Soon after, a record number of Jewish teens from across North America and around the world will come together for a life-changing opportunity at BBYO's summer experiences. BBYO offers travel programs for teens to develop their leadership skills; explore Judaism like never before; participate in hands-on community service and social justice experiences; develop business skills and career networks; and travel the world to places such as Israel, Western Europe, Asia and Central America!
